

# The benefits of anytime, anywhere technology

Due to recent events, companies of all kinds have been tasked with transitioning to a fully or partially remote workforce — which is not an easy task without the right tools in place. It's apparent now more than ever the importance of being able to work remotely in the event your workplace is unable to operate as normal.

Hear from some ADP clients how our anytime, anywhere capabilities have proven beneficial, especially in today's environment:

## A remote HR team

Since ADP is web-based, I'm able to use it from home without changing my computer settings or having to remote access. Yesterday, I was able to process our entire payroll from home without any issues. It's also so helpful for maintaining employee timecards daily while working remotely.

**Braden Appleton**, HR advisor, The Credit Union for Robertson County

We [implemented ADP Workforce Now Onboarding] a couple weeks ago. ADP had it up and running with my team in a week and just in time for our remote onboarding. This helps with things we would've been unable to do remotely such as paperwork and I-9's.

**Briana Simonelli**, senior HR operations specialist, Sovos Compliance

ADP has helped us streamline the payroll process — it's now much easier and more efficient. I can log on to the website from anywhere and process payroll in 45 minutes to an hour. Having the ability to do this [remotely] was my primary decision for transitioning to ADP.

**Tameka Brown Murphy**, VPHR, InFirst Federal Credit Union

Having access to ADP Workforce Now has allowed me to work remotely. I'm able to log in and process payroll and make employee updates. I also like the fact that when I call from my cell phone, all I have to enter is my work number for ADP to recognize me.

**Linda Schewe**, SHRM-CP, HR specialist, The Shepherd Material Sciences Company

## A remote workforce

[ADP has helped by providing] the ability to use configurations to easily upload new articles, company information, links to legislation information, etc. so all employees can access while working remotely.

**Christina Pasquarelli**, paralegal, Direct Holdings Global

Self-service has been very helpful. The information is at employees' fingertips — on their cell phones or on their computers at work or home. It's very intuitive and we find it really easy to explain to our employees where to look for their pay stubs and their direct deposit information. With ADP self-service, it saves our employees time, and it saves us time.

**Katie Wible**, payroll manager, SPIN

The ability for associates to access and update their own benefit information on demand, in the comfort of their own homes, is extremely important. Our associates have come to rely on it.

**Caroline Wyatt**, vice president of human resources, Yokes Fresh Markets

## Real clients. Real challenges. Real solutions.
